

My name is Kelly and I am the SEND officer for Holyrood Media City. My role is to be an ambassador for children with special educational needs and disabilities by ensuring they receive the highest standard of care, to help them achieve the best possible emotional and educational outcomes in order that a smooth transition into compulsory education takes place. I am also the ECAT co-ordinator which stands for Every Child's A Talker, this includes monitoring all children's communication and language and providing vocabulary groups throughout the setting.
